COFFINS

For service that's second to none

For four generations, we at Somerset Willow have been hand-weaving beautiful products to meet our customers' specific requirements. We pride ourselves on delivering items of matchless quality, exactly when they are needed. Second-best is not an option for us.

Our skilled craftsmen train for a minimum of five years in our family business, which has been creating beautiful willow products since 1959.

- All our coffins are entirely hand-crafted from sustainable willow. We provide a wide choice of coloured willow bands and handles, so that families can create a willow coffin that is an individual and memorable tribute to their loved one.
- We understand how quickly our products may be needed. Our standard sizes of coffin can be delivered in 24 hours, and bespoke sizes are available in 48 hours.
- Our coffins and caskets are suitable for standard burial, green burial and cremation.
- Our dedicated sales team is available from 8.30am to 5pm on Monday–Friday, and we have an out-of-hours service for urgent calls at other times.

The limitations of the printing process mean we cannot guarantee that the colours shown in photographs will exactly match the final products. The floral arrangements shown throughout this brochure are not included.

Front cover shows a curved-end coffin in buff willow, inlaid with navy bands and featuring navy woven willow handles.

Each of our coffins is a special tribute to a loved one. Our unique service provides families with a completely personal choice in the design of their casket.

Hand-woven using either weatherbeaten gold or buff willow, our traditional style and curved-end coffins can also feature hand-dyed willow bands and handles in a choice of 15 colours. All of our coffins are made to carry up to 30 stone (190kg).

Beautifully engraved inscriptions on oak plaques can be added for a truly personal touch. All our coffins feature toggle and loop closures, made entirely from natural materials.

Because each coffin is handmade with great care, we can offer a completely individual bespoke service. If there is something you would like which we don't mention here, please just ask.

All our products are FFMA approved and are suitable for green burial, standard burial and cremation.

Making it personal

Because each of our coffins is handmade with great care by experienced craftsmen, we can offer a truly individual bespoke service.

Casket shape

Make your selection from our traditional style coffins, which have square ends, or our curved-end caskets. Examples are shown throughout this brochure.

Natural willow colour

Different shades of natural willow colour are available, the result of handling the willow in different ways when it is harvested. All our coffins are available in a choice of:

- Weatherbeaten gold (shown on the left)
- Natural buff (on the right)

Quality interiors

Our coffins can be fitted with a simple natural calico cotton lining that includes a cotton pillow filled with natural wadding. Our coffins can also be lined with a more elaborate interior to create a soft cushion on the base and sides of our coffins, this provides a more comforting look and feel.

Bespoke handles

Our coffins and caskets feature six handles, which can be crafted from natural hemp rope, or woven from undyed or coloured willow, according to your preference.

Woven willow handle

Rope handle

Oak nameplates

Beautifully engraved solid oak plaques can be inscribed with up to five lines of text. Each plaque is carefully attached to the coffin lid using twisted jute cord.

Embellishment

For a personal touch, our coffins can be decorated with a woven cross (other simple motifs may be available on request).

Hand-dyed banding

If you like, you can select colours of hand-dyed willow to be carefully woven into distinctive bands around the top and bottom of your chosen coffin.

Willow colour range

We provide the following choice of 15 colours for willow handles and banding.

Our innovative online tool enables you to explore the range of coffin shapes, willow colours, banding and handles (see www.somersetwillowcoffins.co.uk/create-a-coffin).

Families and friends can use this web tool to discuss possible choices amongst themselves via social media (including Twitter and Facebook), as well as by email or print.

Anything else?

If there is something we haven't mentioned, please ask. We will do all we can to meet your requirements.

Memories

Our coffins can be decorated with your own personal messages as part of a farewell.

These messages could be anything from a memorable moment, to an expressive feeling. Each message is individually inscribed onto a small wooden heart or circle, finished with natural cord and supplied in sets. Once received, they can be handtied to the coffin by the family or if you wish the funeral director can help you with this. The memories can also be kept back after the funeral as a keepsake or tribute for remembrance.

Cherished memories can be added to complement the look of your coffin. You can choose between circle or heart shapes, both come finished in packs of four:

Each memory can hold up-to five lines of text; each line can hold up-to 22 characters. We use the 'Vijaya' font for all our engraving.

We recommend about four to six memories each side of your willow coffin, however you could include many more at your own discretion if you wished to. The memories shown in the image have been carefully tied to the plait of the lid. They could also be placed onto the handles or directly onto the weave of the coffin.

Grown in fields, willow integrates
with its surroundings providing a
natural habitat for many species
of wetland bird and animals

Children's caskets and coffins

Our children's caskets are carefully hand-crafted in a traditional coffin shape or with curved ends, using weatherbeaten gold or buff willow. They can be personalised in just the same way as our larger coffins, with hand-dyed coloured bands, your choice of handles, and a beautifully inscribed oak plaque (see pages 12–13).

Lovingly made from natural willow

We are proud to use willow as a sustainable and natural material in our coffins.

This renewable crop allows us to create carbon-neutral, biodegradable products with minimal reliance on machinery or chemical processing. It enables us to provide families with a coffin of unmatched craftsmanship that's also natural and environmentally friendly.

Somerset Willow prides itself in meeting each family's specific needs at an important and sensitive time. Our craftsmen train for a minimum of five years and our products reflect the skills that have been honed over four generations in our caring family business.
